Optimisation and Trading Platform for Energy Storage

We at Entrix optimize the value of your energy assets in real-time. Based on predictions of the energy system and energy markets, our solution trades your assets' capacity into the right markets at best possible prices - tailored to the changing circumstances of every single day. In everything we do, we take a full asset lifecycle perspective.

Company

Being a part of the Entrix Team means working cross-functionally in its true sense. To provide an all-round solution to our customers, we ensure to bring all functions together under value-driven domains where they can shape all components of the product together.

Entrix

The Entrix solution unlocks the full potential of grid-scale storage assets and virtual power plants and optimizes their financial returns on a day-to-day basis. To ensure the best results when making trading decisions, we cover both energy market and asset operations on a long-term basis.
