# Toyo Solar Power Generation

## Overview

---

What does Toyo Solar do?

At TOYO Solar, we believe in controlling every aspect of the production process to ensure the highest quality, traceability, and energy efficiency. We cover everything from upstream production, including wafer and silicon manufacturing, to midstream solar cell production and downstream photovoltaic (PV) module production.

When will Toyo build a new solar plant?

The new facility will be built with an investment of \$60m and production will commence in Q1 2025. TOYO expects to begin outfitting the new plant in November 2024. Credit: DC Studio / Shutterstock. Japanese firm TOYO, a solar solutions company, has announced plans to build a 2GW solar cell manufacturing facility in Hawassa, Ethiopia.

Who is Toyo solar?

Welcome to TOYO Solar, your trusted partner in advanced photovoltaic solar solutions. Established in November 2022, we are dedicated to delivering reliable and comprehensive solar products globally. Our mission is to become a leading full-service solar solutions provider, offering a seamless integration of the entire solar power supply chain.

How much will Toyo invest in a solar cell plant?

The facility will be built with an estimated investment of \$60m, financed through internal resources and pre-payments. The proposed solar cell manufacturing plant will be developed on a 31,500m<sup>2</sup> facility in Hawassa, for which TOYO has already executed a lease agreement.
