### [Renewable Energy - Tribus Energy](#)

Overview. Inverters & Backup Systems (Domestic and Commercial): Harnessing the power of renewable sources, we provide state-of-the-art inverters and backup solutions, ensuring uninterrupted energy supply and reduced environmental impact. On-Grid and Off-Grid Systems: Our expertise in off-grid systems empowers clients to generate and store their own energy, ...

### [Working with landowners](#)

The growth of the clean energy sector represents a lucrative opportunity for landowners whose landholding is well-located for grid connections. At Tribus, we have all of these in place in our small, agile, and effective team. A safe pair of hands, with a successful track record in large scale solar and battery projects.

Solar

### [Pre-application Archives](#)

Here are just a few of our successful large scale clean energy projects so far, with more on the way that are already in the early stages of development. Tribus can assess your landholding to see if its suitable for development. See more. Working with communities. Wherever we work, we take our responsibilities seriously, working with local

### [Working with communities](#)

The move to cleaner sources of energy means that new energy generation sites need to be developed. Clearly, this can have an impact on people who live and work close to where these sites are located. Tribus Clean Energy is one of very few businesses that has taken large scale solar and battery projects from initial concept all the way through

We are Johannesburg based company, currently focusing on rendering services to both public and private sectors within the Southern Africa region. Tribus-energy PTY LTD is made up of industry experts

## Tribus switches to solar energy

Last month, Tribus greatly reduced its environmental impact by replacing all the lights in its factory with LED. At the same time, Tribus mounted 550 solar panels on its factory roof. The switch from high-energy lights to energy-efficient LED's has led to an instant drop of Tribus' total energy consumption of almost 40%. The energy

### Tillbridge Solar Project

The decommissioning of Cottam power station in Nottinghamshire released spare grid connection capacity in the region. Tillbridge Solar Limited - a joint venture partnership between Tribus Clean Energy and Recurrent Energy (a Canadian Solar company) - has designed a solar power and battery storage project to make use of the available connection capacity.
