

Solar Energy South Africa

Trina photovoltaic panel model tdn

Overview

What is Trina Solar?

Trina Solar's best selling panel since 2004. One of the world's most reliable panels, tested and proven by internationally renowned institutions such as the TUV Rheinland and the Desert Knowledge Australia Center.

What voltages can Trina Solar modules operate at?

Trina Solar modules are certified for operating in Application Class A installations at voltages below 1000V DC (For TSM-PE05A.**, PE14A.**, below 1500V DC).

What is Trina Solar I-Topcon?

In 2019, Trina Solar achieved a front side median efficiency over 23% on i-TOPCon cells. Empowered with i-TOPCon technology, Trina Solar Duomax N modules achieve an industry-leading output power of up to 430W. Trina Solar 500W Vertex modules employ cells based on 210-mm silicon wafers.

Which Trina Solar panels are best?

Currently the most popular panel produced by Trina Solar. Versatile and adaptable, with power output ranging from 220 to 240Wp, the TSM-PC05 panel is perfect for large-scale installations, particularly ground-mounted and commercial rooftop systems.

Can Trina Solar modules be installed in landscape or portrait orientation?

SITE SELECTION Trina Solar Modules can be mounted in landscape or portrait orientation however the impact of dirt shading the solar cells can be minimized by orienting the product in landscape. Solar module is recommended to be installed at an optimized tilt angle to maximize the energy output.

Is Trina Solar a vertically integrated company?

Listed on the New York Stock Exchange (NYSE) since 2006, Trina Solar is currently one of the few PV manufacturers to develop a wholly vertically-integrated business model: from the production of ingots, wafers and cells to the assembly of modules.
