Trinidad and Tobago oxeon energy

Overview

Who regulates the energy sector in Trinidad & Tobago?

The MEEI (Ministry of Energy and Energy Industries) manages Trinidad and Tobago's oil, gas, and mineral resources. The MEEI is responsible for monitoring, controlling, and regulating the country's energy and mineral sectors. The Regulated Industries Commission also serves as a regulator for the energy sector.

Where does Trinidad and Tobago get its energy from?

This page is part of Global Energy Monitor's Latin America Energy Portal. Trinidad and Tobago derives almost all of its energy from domestically produced hydrocarbons, especially natural gas.

Who owns natural gas in Trinidad & Tobago?

State-owned National Gas Company is responsible for the purchase, sale, transmission, distribution, and aggregation of Trinidad and Tobago's natural gas resources. POWERGEN (Power Generation Company of Trinidad and Tobago) is the leading independent power producer in the country.

How will shale gas affect Trinidad & Tobago's traditional gas markets?

Emerging shale gas production has brought prices down, encouraging the revival of some idled ammonia and methanol plants and the construction of new facilities that will commence operation over the next few years. This represents a threat that can negatively impact Trinidad and Tobago's traditional gas markets in the US.

What is the Nationally Determined Contribution plan for Trinidad & Tobago?

The government's Nationally Determined Contribution plan released in 2018 calls for Trinidad and Tobago's power generation, transportation, and industrial sectors to reduce emissions by 15% relative to business as usual by 2030. The MEEI (Ministry of Energy and Energy Industries) manages Trinidad

and Tobago's oil, gas, and mineral resources.

Where is natural gas processed in Trinidad & Tobago?

Trinidad and Tobago houses one of the largest natural gas processing facilities in the Western Hemisphere. The Phoenix Park Gas Processors Limited (PPGPL) natural gas liquids (NGL) complex is located in the Port of Savonetta.

Home Energy Storage (Stackable system)

High Efficiency Easy installation Safe and Reliable Perfect Compatibility

Product Introduction

- Scalable from 10 kWh to 50 kWh
- Self-Consumption Optimization
- Integrated with inverter to avoid the compatibility problem
- LFP battery, safest and long cycle life
- Stackable design, effortless installation
- Capable of High-Powered Emergency-Backup and Off-Grid Function

ENERGY TRENDS AND THE GREEN ENERGY ...

The supply of primary energy in Trinidad and Tobago is dominated by natural gas, with a small share accounted for by crude oil (Figure 2). In 2021, natural gas accounted for 93 percent of the total energy supply in Trinidad and Tobago (Figure 1). Trinidad and Tobago does not source
