Tritium Pty Ltd is a key technology influencer and global top five supplier to the EV infrastructure market with offices in Australia, the United States, and Europe. They employ over 300 people. Looking for a particular Tritium Pty Ltd employee's phone or email?

.

What is tritium's R&D centre?

Brisbane, Australia, April 30 2019 – Tritium, a world leader in electric vehicle (EV) DC fast charging technology, has opened its state-of-the-art research and development (R&D) centre, the largest of its kind in the world and the global centre for Tritium's facilities in Europe and North America.

Is tritium a fast charger?

Established in 2001 to provide power-electronic systems and battery energy-storage applications, Tritium became one of Australia's fastest-growing companies with the launch of its first DC fast charger in 2014. Since then, Tritium has become a leading global DC fast charging (DCFC) supplier with installations in more than 29 countries.

Where is tritium made?

Tritium currently holds around 50 per cent of the world-leading market in Norway and around 15 per cent of the wider global market for 50kW fast chargers. Tritium customers include NRMA, Charge.net.nz, EDF Lumins, Fortum, Grønn Kontakt, IONITY and Stromnetz. Tritium's global headquarters and main manufacturing plant is in Brisbane, Australia.

Does tritium use a cookie?

But in order to comply with your preferences, we'll have to use just one tiny

cookie so that you're not asked to make this choice again. Founded in 2001, Tritium designs and manufactures proprietary hardware and software to create advanced and reliable DC fast chargers for electric vehicles.

How many people does tritium employ?

Tritium now employs more than 300 people globally, with the R&D and engineering teams the same size as their executive, sales and marketing teams combined, ensuring innovation remains at the forefront of the company's ethos.
