[Olson Solar Energy](#)

3unicorns Olson 03/24/2020 Although the owners of Olson Solar Energy are our grandsons, we have seen their dedication to their business first hand as they installed a 10kw ground mount solar panel system in August of 2018 on our rural property in West Salem, WI.

[Financial Benefits](#)

Much of the funding is allocated to clean energy industries across the board, but solar energy is one of the biggest winners. This is the first sigh of relief the nation's solar industry let out after a rocky few years - the COVID-19 pandemic stalled installations and ongoing supply chain issues have derailed schedules and increased overall

Why Go Solar?

One of the most clear cut benefits of solar panels is the ability to hedge utility prices. In the past ten years, residential electricity prices have gone up by an average of three percent annually. By investing in a solar energy system now, you can fix your electricity rate and protect against unpredictable increases in electricity costs.
