Overview

What is the Virgin Islands Energy Office?

The Virgin Islands Energy Office (VIEO) is focused on promoting sustainable energy policies in the Virgin Islands through clean energy production and distribution, energy efficiency, transportation, and energy consumption. It achieves this through outreach, financial incentives, training, and technical assistance.

How does oil affect the cost of electricity in the USVI?

The USVI, like many island nations, is heavily reliant on fossil fuels for electricity generation. This reliance leaves the USVI vulnerable to global oil price fluctuations, which directly impact the cost of electricity. Assumes an average electricity price of \$0.50/kWh and consumption of 767.4 gigawatt-hours (GWh).

Do St Thomas and St Croix have electricity?

As of late 2014, both St. Thomas and St. John were served by one electrical grid run by the Virgin Island Water and Power Authority (WAPA). St. Croix, however, has a separate electrical grid in the WAPA service area. More than 1,000 distributed renewable energy systems were connected to the WAPA grid.

What is the cost of wind energy in St. Croix?

The cost of wind energy in St. Croix ranges from \$0.08 to \$0.14 per kWh. The localized cost of energy from utility-scale wind projects ranges from this amount. St. Croix has moderate potential to generate 3 MW to 5 MW of energy from biomass because the majority of the island is covered with forest. Landfill gas has an expected capacity of about the same.

How much energy can St Croix generate from biomass?

St. Croix has a moderate potential to generate 3 MW to 5 MW of energy from

biomass due to the majority of the island being covered with forest. Landfill gas also has an expected capacity of about the same.

The U.S. Virgin Islands (USVI) Energy Office is the managing agency for USVI's Weatherization Assistance Program spite geographic isolation, high retail electricity rates, and vulnerability to natural disasters that wreak havoc in island communities, USVI was able to weatherize 444 homes between 2010 and 2021 with annual formula funds from WAP.

Virgin Islands Energy Office Overhauls Battery Program

Effective Nov. 8, the Virgin Islands Energy Office overhauled the Virgin Islands Energy Storage (VIBES) program, opening up the application specifications to allow for larger battery systems to participate. VIBES is all about keeping the lights on, even when a storm or other event causes electrical service in the territory to be disrupted.

Governor Bryan Initiates New Net-Metering Program

U.S. VIRGIN ISLANDS--Governor Albert Bryan Jr. announced the proposal of a net-metering successor program, which allows residents to offset their electricity costs by selling power back onto the V.I. Water and Power Authority grid. The Virgin Islands Energy Office worked with WAPA and the Public Services Commission, with technical assistance from the U.S. Department of ...

US Virgin Islands recommendations : r/travel

St. John definitely is the place to visit in the US Virgin Islands. I personally loved Cruz Bay more than Coral Bay, but you cannot go wrong with either one. it's overrated. Platform Beach, Hull Bay, and Neltjeberg are the way to go (you'll need a 4x4 to get to Neltjeberg, it's worth it. You'll likely end up having a very expansive
