## Overview

---

The USVI Solar+ Financing (SPF) Pilot Program is a loan program for residential solar PV and Battery systems being offered through the Virgin Islands Energy Office and the VI Water and Power Authority. Through on-bill repayment this program allows property owners to pay for renewable energy systems through their monthly utility bill.

The USVI Solar+ Financing (SPF) Pilot Program is a loan program for residential solar PV and Battery systems being offered through the Virgin Islands Energy Office and the VI Water and Power Authority. Through on-bill repayment this program allows property owners to pay for renewable energy systems through their monthly utility bill.

The innovative financing program offered Virgin Island resident's loans of up to \$30,000 to use towards the installation of solar photovoltaic (PV), and solar PV systems built in conjunction with battery storage.

This program is exclusively available to full-time USVI homeowners with no existing solar installed. Selected applicants will receive a 15-year loan with an annual interest rate of 1% to install an approved solar energy system tied into the Territory's power grid.

The USVI Solar+ Financing (SPF) Pilot Program is a loan program for residential solar PV and Battery systems being offered through the Virgin Islands Energy Office and the VI Water and Power Authority. Through on-bill repayment, this program allows property owners to pay for renewable energy systems through their monthly utility bill.

As part of his commitment to transitioning the U.S. Virgin Islands to renewable energy sources, Governor Albert Bryan Jr. and the Virgin Islands Energy Office (VIEO) will begin taking applications Wednesday, September 28, for the Solar+ Financing Pilot Program (SPF).
