Ukraine banded storage containers

Overview

What is a bunded chemical storage unit?

Bunded Chemical storage units are designed to safely store 205 litre drums and IBCs safely and securely in the workplace. Store highly flammable liquids, chemicals, petroleum mixtures, oil, pesticides and other hazardous materials in one of our bunded storage units.

What can you store in a bunded storage unit?

Store highly flammable liquids, chemicals, petroleum mixtures, oil, pesticides and other hazardous materials in one of our bunded storage units. Multi-Purpose, Dual Purpose and General Purpose bunded Storage Units are bespoke manufactured and built to individual specifications.

What is a bunded fuel tank & storage unit?

Our bunded fuel tanks and storage units make the ideal location for storing highly flammable liquids, chemicals, petroleum mixtures such as paraffin, oil, diesel, pesticides, and other materials which are hazardous to your health. Below, we have listed the types of storage units, tanks, and sheds that we have ready and waiting for you.

Why should you choose a bunded storage unit?

Our bunded storage selection will act as a barrier between any spilled or leaked liquids and the indoor or outdoor environment of your worksite, with sumps and trays capturing any liquids which occur within the unit, reducing risks to the health of your workers and to the environment as a whole.

What is banded storage?

Banded storage containers can hold a number of standard drums but if any or all of the drums leak, the container has an area under the drums to collect the spilled liquid. Using a banded storage vessel will ensure that if the tank or drum fails, the contents will be contained. This lowers the chances of your employees being affected by a spill
