Overview

Who is unigrid?

UNIGRID Inc., a California-based startup that develops advanced sodium-ion batteries, announces that it has received an investment from LG Technology Ventures. This investment is part of LG Technology Ventures' dedication to creating value in promising startup companies and helping them develop strategic partnerships with LG Companies.

Did LG invest in unigrid?

SAN DIEGO, Oct. 22, 2024/PRNewswire/ -- LG Technology Ventures, has made an investment in UNIGRID Inc., a California-based startup that develops advanced sodium-ion batteries, placing a stake in the emerging sodium ion battery development space.

What is unigrid's sodium-ion battery technology?

Discover UNIGRID's sodium-ion battery technology that combines safety, performance, and sustainability. Our innovative batteries use abundant resources to deliver efficient and powerful energy storage solutions for a cleaner, safer world. Learn more and take the Sodium-Ion Challenge today!.

Who is unigrid battery?

About UNIGRID Battery UNIGRID Battery, a University of California, San Diegospin-off company, was founded in 2021 from the groundbreaking Ph.D. research work by Dr. Darren H. S. Tanand Dr. Erik A. Wu, who were both advised by Prof. Zheng Chenand Prof. Shirley Meng, prominent figures in the battery field.

Why did unigrid get a new financing?

UNIGRID is currently in the midst of ramping up production to meet immediate customer demands. This new financing will help the company accelerate its product commercialization and build upon existing industry partnerships to

deploy its technology for new energy storage and e-mobility applications.

Are unigrid batteries safe?

UNIGRID's sodium-ion batteries are unlike any other. Built in safety. For peace of mind. Third-party tested for safety, you will not find a safer sodium-ion battery with comparable performance. Our sodium-ion batteries do not undergo thermal runaway.
