TOP 25 CLEAN ENERGY QUOTES (of 119) , A-Z Quotes

In reality, Republicans have long been at war with clean energy. They have ridiculed investments in solar and wind power, bashed energy-efficiency standards, attacked state moves to promote renewable energy and championed laws that would enshrine taxpayer subsidies for fossil fuels while stripping them from wind and solar.

The History of Solar Energy in the United States

The 1970s energy crisis served as a critical turning point for solar energy in the United States. Triggered by the 1973 oil embargo, the crisis exposed the vulnerabilities of relying heavily on fossil fuels and sparked a national and global awakening to the importance of renewable energy sources, including solar power.
