Battery chargers (uninterruptible power supplies)

WORKING PRINCIPLE

A UPS means a battery charger consisting of a combination of convertors, switches and an energy storage that make up a power system for maintaining the continuity of load power in the case of input power failure. It is being considered that UPS be included in the scope and definition of a battery charger.

The Best Uninterruptible Power Supplies (UPS) of 2024

What to Look For in an Uninterruptible Power Supply (UPS) Many smart devices have built-in battery packs, with modern laptops packing enough cells to last a whole day. However, typical desktop computers, routers, and similar devices still need to be plugged into a power source all the time to work. That's where an uninterruptible power supply (UPS) ...
