question

Guy Stewart (Victron Community Manager) answered · Jul 09, 2021 at 08:17 AM @Matthias Roetzer - UPDATE. There is a built in work around to this protection if necessary. In the case you are not using (auto) equalization you set this voltage level a bit higher, so this level will be used by the detection mechanism instead. Comment. 0

Off-grid

[Van life with induction hob](#)

We have therefore opted for a Victron Multiplus 12/2000/80 with a continuous power of 1600 Watt. Do you cook more extensively than we do and do you want to be sure that your inverter meets the requirements? Then choose a Victron Multiplus 12/3000. The Multiplus series is useful anyway because it is an inverter and battery charger in one.

[VRM on Your Smartwatch](#)

We are excited to announce that our VRM App is now available on smartwatches! You can now monitor your Victron system on the go, directly from your wrist. With VRM on your smartwatch, keeping an eye on essential aspects of your system has never been easier. Quickly view the state of charge, solar power, grid [...]
