### Compliance

VPI Immingham LLP has made a compulsory purchase order under powers in the Electricity Act 1989, to acquire land and rights adjacent to its combined heat and power plant at Rosper Road, Immingham, to be able to construct and operate its carbon capture plant, part of Humber Zero. Documents relating to the CPO can be found below.

## [Humber Zero News & Resources](#)

Humber Zero, a pioneering project to help decarbonise the Immingham industrial cluster, has submitted applications to the Government for carbon capture by the mid-2020s. The applications propose connecting to the East Coast Cluster, covering Humber and Teesside, which was confirmed by the Department of Business, Energy and Industrial Strategy (BEIS) as a Track-1 ...

**Careers**

In operation since 2004 with further expansion in 2009, VPI's Immingham combined heat and power (CHP) plant has been providing energy to homes and businesses ever since. With three GE gas turbines and three steam turbines in an efficient modular design, the facility reliably delivers 1.2GW of flexible generation capacity to the National Grid

 VPI LLP VPI Immingham LLP Work No.1 An OCGT power station (the 'OCGT Power Station') with a gross capacity of up to 299MW. Work No.2 Access works (the 'Access Site'), comprising access to the Main OCGT

## [VPI Immingham OCGT Project](#)

VPI Immingham LLP ('VPI LLP') owns and operates the existing VPI Immingham Power Station, one of the largest combined heat and power ('CHP') plants in Europe, capable of generating 1,240 MW (about 2.5% of UK peak electricity demand) and up to 930 tonnes of steam per hour (hereafter referred to as the

## **Huge boost for ground breaking carbon capture project at Immingham**

Backed by VPI Immingham power plant and the Phillips 66 Humber Refinery, Humber Zero is a carbon capture and storage (CCS) project on the south bank of the Humber Estuary. The large-scale decarbonisation project will remove up to 8-million tonnes per annum of CO<sub>2</sub> at the Immingham industrial site within the next 7 years.

## [VPI appoints Jorge Pikunic as first CEO](#)

o VPI is delighted to announce the appointment of its new Chief Executive Officer, Jorge Pikunic. Jorge joins VPI from growth and sustainability company Xynteo, where he was CEO. Prior to this he was at Centrica, where he held several leadership roles, including Managing Director of Centrica Business Solutions, at which he led the development [...]

## [Pioneering CCS in power: VPI Immingham](#)

o VPI has appointed Jonathan Briggs as Project

Director for its Humber Zero decarbonisation project at VPI Immingham, its 1.2GW combined heat and power plant (CHP) in North Lincolnshire. The Humber Zero project is a hybrid carbon capture and storage (CCUS) and hydrogen CHP project which could swiftly decarbonise up to 5m/tCO<sub>2</sub> per annum of [...]

## [Viking CO2 is awarded 'Track 2' status](#)

The VPI Immingham project has progressed at pace, recently completing FEED, and is well positioned to connect to the Viking CCS T&S network, putting into place carbon capture technology that could be deployed to other important industrial clusters across the UK and contributing £1.4bn to the £4bn that Viking will add to the Humber region by 2035.
