Aker Solutions and ABB win FEED contract for UK GreenVolt project

4 ???· While the majority of GreenVolt's renewable electricity will flow to the UK grid, the wind farm will also reduce offshore emissions from the North Sea's oil and gas industry by facilitating the retirement of existing offshore power generators. GreenVolt will save one million tonnes of CO2 each year, making a significant impact on both the

About us

Greenvolt Power is a global independent power producer deriving green energy from sun and wind. Our customers include utilities, electric cooperatives, municipalities, and companies with ESG goals. We are active in several markets, including the U.S. and Europe. Our experienced management team is here to help achieve your goals in the most cost

[Adopt a meadow initiative](#)

The "Adopt a Meadow" Project is a unique opportunity for Greenvolt Power to support the active protection of Polish nature. Through this initiative, which is organized by Fundacja Kwietna, we aim to restore the rich biodiversity of a meadow in Nieborów. This valuable natural area loses its natural values and degrades with each passing season.
