Calculez la production de vos panneaux solaires

Wattuned est active dans le domaine du solaire photovoltaïque connecté au réseau depuis 10 ans. Face à la demande grandissante concernant des applications non connectées au réseau, nous avons développé une branche spécialisée dans l'analyse et la mise au point d'installations solaires autonomes. Aujourd'hui nous proposons des kits solaires standards assemblés et ...

Photovoltaic solar panels

Solar panels convert sunlight into electricity. They can provide direct current (DC) to power appliances or be converted to alternating current (AC) using an inverter. Polycrystalline solar panels have a bluish, textured appearance, while monocrystalline panels are uniformly black. The main difference lies in the structure of the photovoltaic cells. Monocrystalline panels are more ...
