Still free to choose: What Polisario's legal win means for EU ties ...

On 4 October, the Court of Justice of the European Union (CJEU) handed another historic win to the Sahrawi national liberation movement, known as Polisario Front, in its struggle to end Morocco's occupation of Western Sahara. The court blocked efforts by the European Commission to include the territory in the European Union's trade liberalisation and ...

"This is a momentous victory for the people of Western Sahara. At a time when international law is under pressure, it is fundamental that the EU follows its own court and stops collaborating with the occupier through illegal trade agreements", stated Western Sahara Resource Watch. This morning, the EU Court of Justice issued a landmark ruling.

More than eight years have passed since Siemens first issued a press release regarding a contract for construction of energy infrastructure

in occupied Western Sahara. The company then described the territory as "Southern Morocco". Now, it has done that again. In a press release [or download] of early September, Siemens Gamesa Renewable Energy (SGRE) announced that ...

Western Sahara Resource Watch

Through its roll-out of massive energy projects in occupied Western Sahara, Morocco becomes more economically connected to, and dependent on, the territory it holds under illegal, military occupation. It intends to export energy generated in the territory to Morocco proper, and to sell off any surplus to surrounding countries, including the EU.

efficiency. ...

An unjust transition: Energy, colonialism and extractivism in occupied

The multiple ecological crises provoked by human activities are linked to and exacerbate the other political, social and economic challenges currently faced by North Africa. 1 In Western Sahara, these challenges and crises are shaped by its continued condition as a colony. This report aims to contribute to conversations on a just transition - that is, a transition to ...

In Scramble for Clean Energy, Europe Is Turning to North Africa

Western Sahara Resource Watch, a Brussels-based NGO allied to the independence movement, estimates that by the end of the decade occupied Western Sahara could be supplying half of all Morocco's wind energy and a third of its solar energy, much of it headed for Europe. Morocco insists that the territory is part of Morocco.
