

Solar Energy South Africa

Wetility energy United Kingdom

Overview

What is wetility & how does it work?

Wetility enables you smartly generate solar power on your rooftop, then seamlessly store, release and monitor clean energy to your home or business. We believe that we are here to harness the sun's power with purpose, introducing you to a hybrid solution that works seamlessly and in tandem with your current power options.

How much did wetility raise?

Wetility, a South African startup offering solar energy solutions for households and businesses, has raised a R903 million (~\$48 million).

What is a wetility system?

The Wetility hardware series - which could be one of the PACE, RISE or LIFT series systems - connects to the grid but can function independently during outages. It generates, stores, and automatically uses energy, saving costs and ensuring power supply.

What makes wetility unique?

Wetility has focused on leveraging our team's many years of experience from energy sectors around the world. This enables us to curate an end-to-end customer experience that is trusted. Our team is dedicated to the vision of energy independence for everyone, and this has resonated with investors.

Does wetility offer battery replacement?

Our Wetility lease options can also include battery replacement. The STRIDE system comes with a 5-year warranty. The Lithium-ion batteries we use are rated for 3000+ full equivalent cycles and offer a strong shelf life. Is solar energy sufficient for off-grid living, especially with appliances like stoves?

.

What is the 360 wetility experience?

Marketed as the “360 Wetility Experience”, the system comprises rooftop PV installation or solar panels. The solar panels power the system’s core comprising of a hybrid inverter, lithium-ion batteries and switchgear. PACE, as it is marketed, controls the energy flow to clients’ homes or businesses, managing load shedding and switching schedules.
