## Wind blast machine with generator

---

### Husqvarna Blastrac 1-15DS , Husqvarna US

The Blastrac 1-15DS walk-behind blast-cleaning machine offers a high level of versatility and its heavy duty blasting ability makes it optimal for large sized surface preparation applications. It is ideal for cleaning and ...

### Kinetic Wind Generator

The wind strength is determined by the height, weather and random chance. Wind strength rises with height, the wind strength below a height of 64 is insufficient for the Kinetic Wind Generator function. When it is raining or there ...
