Yuma solar Maldives

Overview

What makes Yuma solar different from other solar companies?

Changing the world one roof at a time. Providing customers with the best solar technology sets Yuma Solar apart from other solar companies. Yuma Solar offers its customers the best panels, inverters and batteries available. REC is a top performer on the PV Module Reliability Scorecard, and has the lowest warranty claims rate in the industry.

What is Yuma Solar?

Yuma Solar is our company that expanded in its hometown as Yuma Solar. We have formally trained at the Solar Living Institute in Hopland, CA and continue our certifications to stay on top of the fast growing solar and battery technologies.

Will a 5 MW solar installation make Maldives a popular destination?

Now, one of the first sights for any of the 1.7 million tourists visiting the Maldives will be that of the 5 MW solar installation on the highway linking the airport island to Male and its satellite town of Hulhumale.

How much does a solar project cost in Maldives?

In 2022, 63 investor expressed interest in the third 11 MW solar project in the remote islands of Maldives, and a record low price of 9.8 US cents was received. This is one of the lowest tariffs for any small island developing state (SIDS).

Should investors invest in sustainable solar projects in the Maldives?

In 2014, the first 1.5 MW solar project under ASPIRE only had four investors bids, and resulted in a high power purchase price (PPA) of 21 US cents per unit of electricity, indicating a lack of interest from investors in investing in sustainable projects in the Maldives.

Is the Maldives a sustainable investment destination?

This journey, which started in 2014, is now seeing unprecedented interest from international investors and helping establish the Maldives as an investment destination for sustainable projects.

Yuma Solar will clean your solar panels with spot-free water, and hand-wipe and dry each panel individually at minimal cost. Cleaning is desirable if you live in a particularly dusty area, or if bird droppings are present. One cleaning a year is sufficient if panels stay relatively clean. At the time of cleaning, Yuma Solar will visually
